Dear

## **A Recommendation For a Cost-Effective Solution to Cutting Your Overheads and Improving Your Profits**

With twenty-five years professional, accountancy experience, I understand how overheads and staffing costs can affect a business and more importantly - profits. Especially in this current and uncertain economic climate, all forward thinking companies are looking to be more cost-efficient.

An effective, popular and modern cost-effective step forward is to outsource. My company can offer you a tailor-made, competitively priced, bespoke package to take care and responsibility for the following services:

- Monthly payroll
- Monthly management accounts
- Book-keeping services

I have a qualified and experienced team who are conscientious, dedicated and who can deliver a service without you or your finance director, having the concerns of managing a department. You can be sure and confident of receiving reports and financial analyses without the need to chase staff.

***When you outsource - you have a cost-efficient service without expensive office overheads***

**If you would like to see our full range of services, please visit our website: [www.accountants4u.net](http://www.accountants4u.net).**

For a free first consultation to see how Leslie Eriera & Co. can offer solutions to help your business and increase your profits – [please do contact me...0208 501 3991](tel:02085013991) or mobile: [07984 149498](tel:07984149498).

I look forward to hearing from you.

Yours sincerely

Leslie Eriera
